**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Steffen (US 5,898,219).

Steffen shows a structure of a semiconductor device comprising a semiconductor chip 6 which is mounted on a die pad 7 of a lead frame 4; thin metal wires 8 which electrically connects terminals of an upper face of the chip to inner lead portions of the lead frame; a sealing 10 resin seals an outer peripheral region of the semiconductor chip and which contacts a bottom face of the chip, the region including a thin metal wire region of the upper face of the chip; and outer lead portions which are arranged in a bottom face region of the sealing resin and which are formed to be continuous to respective inner lead portions.

***Allowable Subject Matter***

2. Claims 11, 12, 14-29 are allowed.

The following is an examiner's statement of reasons for allowance: the applied reference fails to further teach and/or suggest wherein at least one groove portion is formed in a surface of each of the inner lead portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
